Channel name: AddBike

Watch our videos on YouTube

# Options

## Lighting Kit

Can be placed on the fenders (you can also place your own)

## AddLock

Secure your AddBike+ with a single key

## 12 or 15 mm Thru-Axles

Place your AddBike+ on bigger mountain bikes

## 75 mm Fork

Place your AddBike+ on smaller bicycles (e.g.: Brompton)

# Safety matters

That's why we double check everything:

Demanding  
testing protocols

Approved by  
laboratories

Our bicycles and kits are approved for:

- Shock resistance
- Braking efficacy
- Child safety
- ISO 4210 fork-friendly

# ...of course it does!

We are parents and dog lovers ourselves.  
We like to travel safe.

In-House  
Security Engineer

Norm  
Compliancy

“Safety is a priority that I monitor closely during all phases: from design to production.”

**Edouard**, Production Engineer
