Safety matters

That's why we double check everything!

**Rigorous
testing protocols**

**Approved by
laboratories**

Our bicycles and kits are approved for:

- Shock resistance
- Braking efficacy
- Child safety
- ISO 4210 fork-friendly

...of course it does!

We are parents ourselves. We only travel safely.

**In-House
Security Engineer**

**Norm
Compliance**

“Safety is a priority that I monitor closely during all phases: from design to production.”

Edouard - Product Engineer
