

You just received

YOUR U-CARGO !

Thank you for choosing AddBike.

You will find below all the information to help you get accustomed to your new Cargo-Bike.

Documents to read before using your U-Cargo

The safety notice

The essential checks before starting!

The user guide

It contains all the information about the U-Cargo and its features

Registering your U-Cargo

In order to fight bicycle theft, manufacturers, retailers and users must now provide information to dissuade thieves from stealing and facilitate the return of the bicycle in case of theft

80 KG

loading capacity on the rear rack

100 KG

of total capacity

20 KG

loading capacity at the front

Protech'360

To ensure that your kids are fully protected, the U-Cargo Family includes the Protech'360 system, a metal frame that also comes with a textile cover

Place/remove the backrest thanks to the quick-release fasteners

Includes adjustable safety belts and removable cushions

The child seats can be installed on the rear rack of the bike

Open and close the door on the textile thanks to the zip

Switch2Carry

The space dedicated to transporting children can become a loading space!

Our Step'N'Load platforms are used as a foot rack AND as a loading space

But you can also add an extra compartment:

Fasten the velcro strips over the rear rack to create an additional loading space

You can now put things on :

- Either on the entire loading space,
- or on one of the two halves

The choice is yours!

Motorisation

Select the desired level of electric assistance, located at the bottom left of the display (from 0 to 5). The remaining battery level is shown with the battery on the left.

You can activate the Walk-Assist mode to benefit from the motor assistance when walking alongside the U-Cargo (See U-Cargo User Manual page 11)

You can use the Easy-Start by pressing the trigger to start the motor without having to cycle. Once the bike is started, the motor will be activated by cycling and not by the trigger (in compliance with the current standard)

It's good practice to always hold the bike when your little ones jump aboard!

Detailed information can be found in the U-Cargo user manual. If you have any questions, please do not hesitate to contact us:
